The event is hosted by the Representation of the European Region Tyrol-South Tyrol-Trentino. The lunch is kindly offered by the Autonomous Province of Bolzano.

Design Days 2018 – Workshops

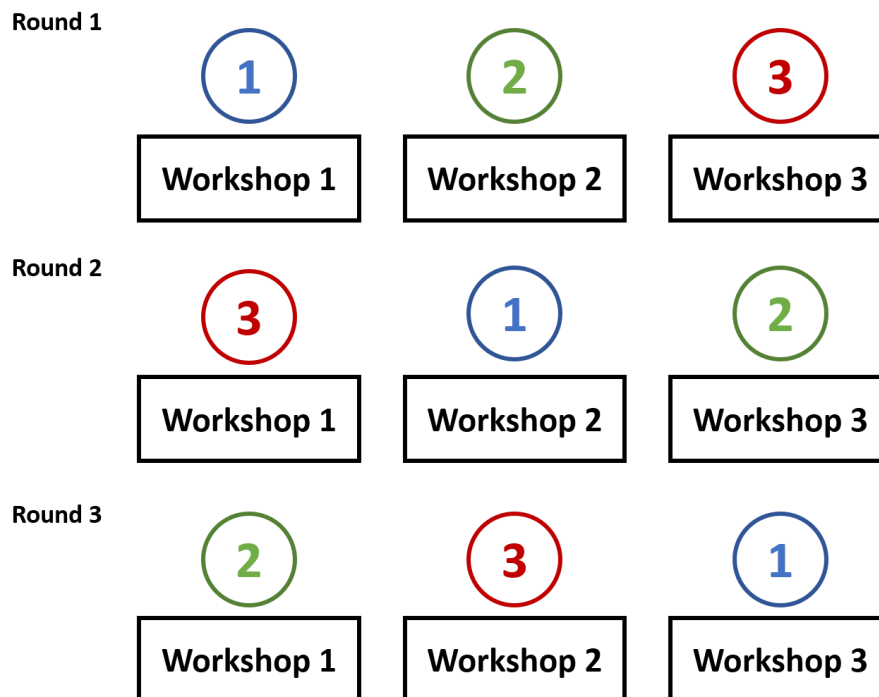

The overall objective of the conference is for the participants to leave with new ideas, new contacts and hopefully new potential collaborations. The workshops will let you meet new people and discuss your ideas with them.

There will be workshops running in parallel. Conference participants will be randomly assigned to one of three groups, all of which get a specific starting workshop where they will spend 30 minutes, before going to their second workshop, and then the third. This means that all participants will have been in all workshops when the three rounds are over.

The three themes for the workshops are:

- Boosting Business
- Innovative Collaborations
- Creative Systems and Strategies

Illustration of the workshop order:

At the end of the conference, we will summarise and discuss the findings from the workshops in plenary.

The event is hosted by the Representation of the European Region Tyrol-South Tyrol-Trentino. The lunch is kindly offered by the Autonomous Province of Bolzano.
